

8 Salmo Pond 28.4 - 20.6 miles Hilly

The popular WNRB Salmo Pond route goes through some very pretty terrain, and has a good warmup stretch before the hills begin. There are about four significant ascents. The bucholic hamlet of Elvers has a few houses and farms at the junction of Cty J & JJ. A shorter route is suggested for those who wish to conserve their energy for the climb back up Cty J to the ridge top. Especially nice is the long runoff on Garfoot Rd before you arrive back at Salmo Pond. Be sure to bring enough water as there are no services along the way.
