

32 Paoli Area Wendy Ride 2.0 24.5 miles Rolling Hills to Hilly Paoli Southwest 27.1 miles Rolling Hills to Hilly

The **Wendy Ride 2.0** starts in Paoli's Town Park and heads west. After a mile and a half of warmup, you will begin the ascent of Observatory Hill at a 10% grade. Be sure to pause on top and look back at the gorgeous view of the farmland towards Verona. After a pleasant downhill, there are stretches of scenic rolling hills and flats on Frenchtown and Story Town Rds. On the latter part of the loop there are some hills, and in a departure from the very popular WNBOR original Wendy Ride, you will first do Locust Rd and then Range Tr before returning to Paoli. Among places to eat is a grocery store featuring local foods and a cheese shop. Be sure to check out the art galleries too.

Paoli Southwest is a variation on the first WNBOR ride of the season. The first leg goes up to Schaller Rd, then descends gently down on Fritz Rd to City A. After that, Fritz Rd rolls along until it gains altitude at the junction of W1 69. From there, the route follows the ridge along the aptly named Ridge Dr, featuring robust views all around. Then down City U and around towards Fritz Rd again, but crossing over to Montrose Rd and even more views. A brief level run on City PB brings you back via Cates Rd (E & N) to go up and down Observatory Rd, and back to the park. For an ambitious day, do both loops!

● Town Park - R W S

From Madison take US 151 south towards Verona, exit south on City PB, R on Paoli Rd, left on Range Tr, park on street. (30)

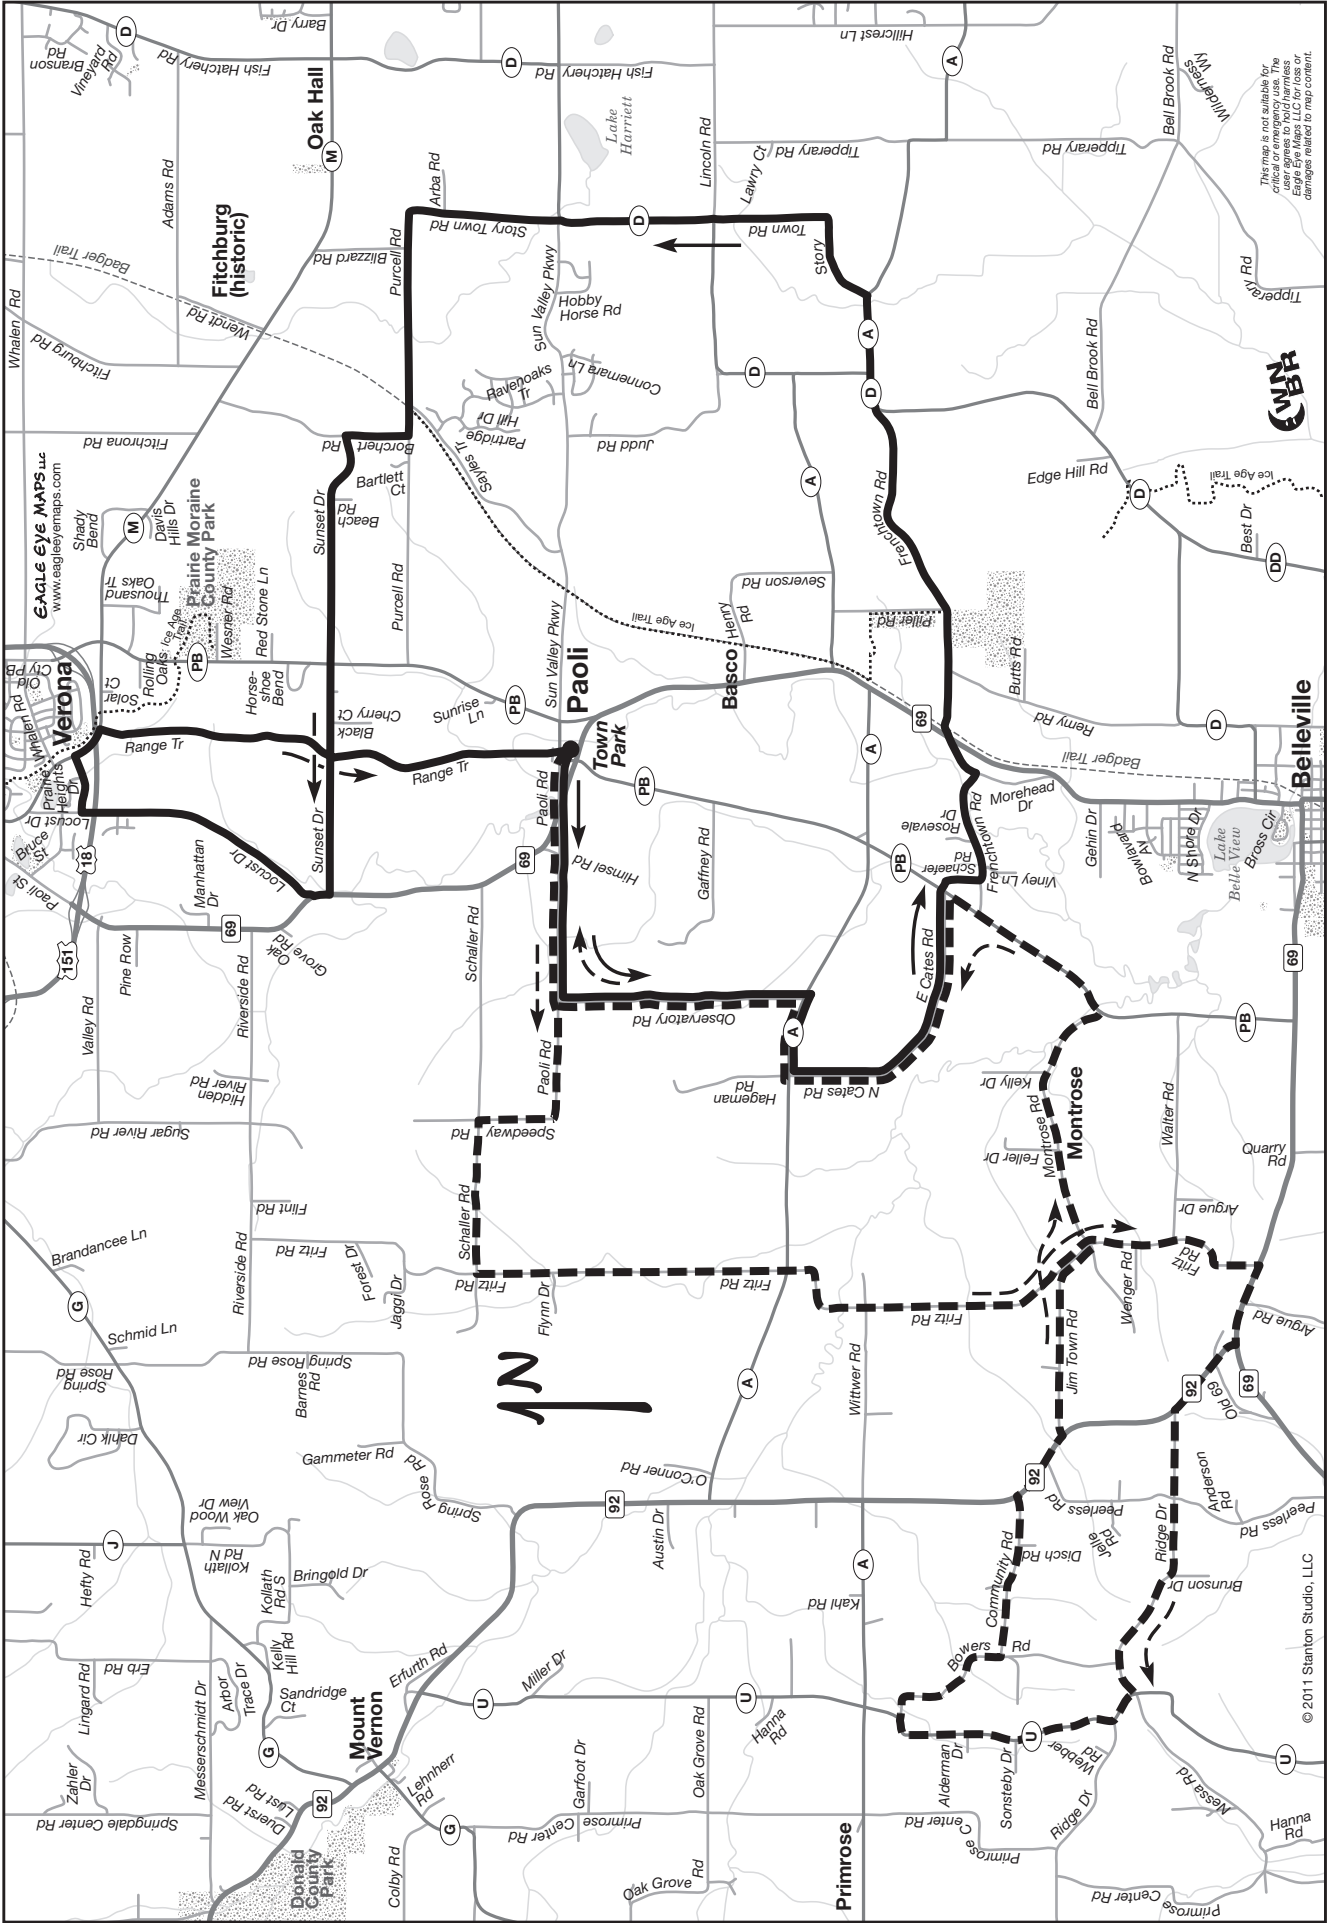

This charming and historic village was incorporated in 1856 shortly after Peter Matts built a dam and sawmill here on the Sugar River. He named the village after his hometown in Pennsylvania which had been founded by Italians. Paoli was the name of a famous Corsican patriot who fought against Genoa for independence. By the mid-1870s the prosperous town included a school, post office, two churches, a cheese factory, two hotels, a
